

Brandon Carrillo Álvarez

Frontend Developer

👤 Profile

I am a passionate **Frontend Developer** with a focus on building modern and functional interfaces using technologies like **React with Vite, TypeScript, .NET (C#), NestJS, HTML, and CSS**. I have working knowledge of **MySQL** and **SQL Server**, and I am proficient in **Git** and **GitHub**.

As a proactive and adaptable professional, I thrive in agile environments and enjoy tackling technical challenges to deliver innovative and scalable solutions. My goal is to continue learning and growing as a developer while contributing to impactful projects.

📁 Employment History

Frontend and Backend Developer at Santa Cruz Nursing Home, Santa Cruz

July 2024 — Present

Currently, I am a full stack developer working on a **management system** for the **Santa Cruz Nursing Home**, designed to streamline operations and improve communication with users and visitors. The system includes both operational features and an informational module to promote the center.

Technology Stack:

React with Vite, Tailwind CSS, React Query, React Hook Form, TypeScript, Zod, Axios, JWT, C# with .NET, MySQL, and more.

Responsibilities:

I collaborated on designing and developing a scalable system with responsive interfaces using React with Vite and Tailwind CSS, backend functionality in C# and .NET, and database management in MySQL. My role included ensuring type safety with TypeScript and Zod, and optimizing the system through testing and debugging.

Methodologies and Tools:

Followed **Scrum** for agile development and used **Azure DevOps** for task management. Managed version control with **Git** and **GitHub**.

🎓 Education

Diploma in Computer Application Programming, National-University of Costa Rica, Nicoya

February 2022 — November 2024

Bachelor's Degree in Information Systems Engineering, National-University of Costa Rica, Nicoya

February 2022 — Present
